[Histogram Collection for NT8](#)
[Download](#)

A collection of configurable Histogram Types for NT8 including the following:

- MACD,
- TSI (.aka. Ergodic),
- SMA (.aka. AwesomeOscillator, LBR 3-10),
- CCI,
- Fisher,
- ADX

Exported using NT 8.0.0.6 - BETA

This indicator collection will import into it's own folder named: "Histograms"

12-10-2015 Update: Standardize naming and Sound Alert file path.  
05-04-2016 Update: Fix parameter serialization issue.

April 2nd, 2018 08:23 PM **Trailer Guy** ★★★★★  
Thank-you! I use DI system as a trend filter. Not something you want to take the time to r

ead on one minute charts when the futures are moving! Your histogram on top of the DI is a

really great solution. I get what I need with a glance, but can still read the details if

A nice collection....Thanks

**DH HorizontalLine** Download ★★★★★

Converted from NT7 to NT 8. An horizontal line at current price. Thanks to the original creator. works fine with me, USE AT YOUR OWN RISK PLZ.

January 5th, 2017 02:35 PM **aestcbr** ★★★★★  
I cannot get it working in ninja trader 8

June 30th, 2016 04:10 PM **brafra** ★★★★★  
😊 Great, I like it. I wonder that it is not originally in NinjaTrader.

June 9th, 2016 12:25 AM **AlphaOptions** ★★★★★  
Thank you for porting over for us!

**Converted BrookBars** Download

The Ninja team beat me to the punch on this one....  
I coded this for NT7 long ago and posted on BMT and Ninja. The Ninja team opted to converted it to NT8 early. Since I coded it originally, I am re-posting here.

[More...](#)

**Sample - Draw/Not draw indicator via Button V3.2** **Download**

Here is a **sample** of a panel button that turns an indicator visibility on/off via a 'click'. You do not have to refresh the chart each time.

Version 3.2

**\* Fixed for NT8b9. Recent NT8 changes to multi-threading created freezing when the chart was loaded.**

I was so used to my MarketDelta buttons that I had to do it for NT8 .

This indicator draws an EMA both via the Plot method and the OnRender method so you can see the code for both techniques.

Thank you very much to "Edge" for the original "button" code and help.

Version3 - Nov 2015:

\* Used 'UserControlCollection' instead of 'ChartControl' for safer usage and it does not interfere with the bars or plotting.

**Thanks**

June 12th, 2016 02:23 PM **dilbert618**

thanks

\* Created smaller button.

\* You can have up to 10 buttons per panel (or more if you change the code). So you can add 10 ema's and specify which position you would like via 'Column#'.

\* Buttons are hard-coded to plot at the top-left of the panel but you can change this in the code if you like via 'myGrid'.

\* The button will appear within the panel the indicator is plotted. Please read the 'summary' at the top of the code for limitations of usage. Use at your own risk.

Version 3.1

\* Fixed bug that prevented button working when state changed from Historical to RealTime.

June 7th, 2016 04:46 PM **ValLiant** ★★★★★  
thanks

February 22nd, 2016 05:27 PM **StarSpangled** ★★★★★  
Thanks so much!!

January 3rd, 2016 12:22 PM **Scalpingtrader** ★★★★★  
thanks for the sample! Converted the button to toggle the daily VWAP Bands (to be found in

the NT8 conversion thread), so they're out of the way when looking at higher timeframes.

[UniRenko bar type NT8b9](#)

Download

★★★★★

**FIX: Just updated for Beta 9. You must download this version.**

Universal renko bar type. Thanks to the original author.

Ported by Sim22, 2015. Version 1. NT8b6

Allows adjustment of tick, reversal and proxy-open increments.

Can also plot continuously or break at the end of a session via "Break at EOD" option.

To use this in a condition eg.

Code

```
//if using UniRenko.....do something.....  
  
if ((int) BarsPeriod.BarsPeriodType == 501)  
{  
    // do something  
}
```

is there a bar close indicator for nt8 to go with this? thanks

February 7th, 2018 05:27 AM **sparks01** ★★★★★  
Perfect 😊

December 8th, 2017 06:26 PM **raymon** ★★★★★  
thanks great tool... with MACD 😊

[More...](#)

[hollow\\_candles](#)

Download

★★

Up candle is a hollow candle. This code was originally uploaded I believe by eDanny on NT 7. If you like dark or even black background and want to be easy on your eyes this indicator will help you.

I did added some comments regards to the conversion process on the "NinjaTrader 8 Indicators and More" thread. Tested with NT 8 B06.

Details: [hollow\\_candles](#)

Submitted by: [atata \[?\]](#)

Hope this helps,

You are correct Zondor, however this also gives the ability to change the directional cand

le outline as well.

November 2nd, 2015 12:36 PM **Zondor**   
wuh? why would anyone need this when you can set upcolor to transparent in data series wi

ndow?
